Work History

2018-01 - **Software Developer**

Current Sagacious Research, Gurugram, HR

i was senior developer in Dashboard project on intellectual property(IP) data made for firm management to extract quality information from dashboard via charts. we have made it semi automated with monthly updates .

i worked both as front and backend developer with Reach with python and many of its supporting libraries & its framework django . we use MongoDB as the data base for chart making we used Google chart api

The project was a massive exposure and fun for me and the team as we work on a massive data set cleaning , shorting , manipulating and executed it from A to Z in strict timeline.

2014-02 - **Web Developer**

2015-05 BRMN IT Solutions, Gurugram, HR

Worked as An web developer and graphic Designer. Worked on various web portal

as Php backed developer and little Bite SEO .

Grasp wide variety of experience of working on different kind of php frameworks and ideas and supporting Technologies

Education

- 2007-04 - **High School Diploma**
